

Merimbula Public School

Friday, February 11, 2022

Dear Parent/Guardian,

Katungul Aboriginal Corporation Regional Medical and Community Service is screening Aboriginal and/or Torres Strait Islander primary school students for ear health problems. The screening tests are simple and painless but can help prevent lifelong hearing loss. They are done by qualified Aboriginal Health Workers from Katungul. These tests will take place at 10:00 am on March 1 and 2, 2022.

If the tests show that your child has problems with their hearing Katungul will write to you about this. We request your permission to screen your child/children for ear health problems at their school.

Please sign and fill in the following form if you give your permission or contact the school on 6495 1266 if you have any questions.

Thank you

Janelle Hodsdon

Assistant Principal

Aboriginal Otitis Media & Aural health Program Consent Form

Katungul Aboriginal Medical Service is checking Aboriginal children to see if they are suffering from Ear and Eye health problems that may affect their hearing and sight. The screens are very simple and completely painless. If the tests reveal that your child has problems follow up may be required.
